Band Inspection Pahokee Tuesday

The District One Inspection Contest for the Pahokee High School Band will take place at the high school Tuesday, Mar. 27, starting at 9:30 a. m. The judging of sight reading and concert playing by the band and solo performances by individuals will be in the school auditorium and inspection of the band's marching ability will take place on Lair Field.

Contest judges for the band will be Roy Wood of Winter Haven, P. J. Gustaf of Sebring and V. D. Sturgis of Sarasota. E. S. Roberts of St. Petersburg will judge the soloists.

The Pahokee Band must receive at least a superior rating in concert playing and at least a rating of excellent in sight reading and marching in order to qualify as a participant in the State Band Contest to be held in St. Petersburg May 3-5.

Soloists who will compete in the district contest include Sidney Caruthers, Myra Lee Cruthird and Willard McCurdy, student conducting; Donna Jo Spooner and Judy Starling, baton twirling; Dickie Atkins and Charles McCurdy, clarinet; Willard McCurdy, trombone; Margaret Shirley, Carolyn Scroggs and Carol Carpenter, piano; Milard Stanley, baritone saxophone; Charles McCurdy, Dickie Atkins and Sidney Caruthers, clarinet trio.

Appreciation Night For The Athletics

Plans were progressing this week under the direction of the Chamber of Commerce for a gala "appreciation night" to be held March 29 when the Philadelphia Athletics will be feted by local ball fans.

The event, according to Ben Wolfson, president of the chamber's merchants division, will be something of a dual observance in that the opposition for the A's will be the West Palm Beach Indians who will be making one of the first appearance of the season.

The ball game, Wolfson said, is being arranged as a tribute to the Athletic's team and club organization in appreciation for the publicity and recognition which the Philadelphia ball club has brought to West Palm Beach. The appreciation night observance will be staged a few days before the A's break up spring training and head north for the season.

Advance tickets for the game are now on sale and a committee of salesmen were visiting civic club meetings this week as well as other events to promote attendance for the March 29 game.

Wolfson said a brief pre-game ceremony was being arranged by the Chamber of Commerce.

With John P. Carmichael, sports editor of the Chicago Daily News, now visiting in Tampa, and Leo Durocher, the "Cinderella man" of baseball with the Giants in training in St. Petersburg—Florida sports fans should find timely interest in the April Esquire story on Durocher, written by Carmichael.

Determined

(Editorial from Palm Beach Times)

We note with pleasure that Senator Russell O. Morrow has lost none of his determination to effect ratification of the Anti-Third Term Amendment. Though the requisite number of States has made the amendment the Supreme Law of the Land, the importance of ratification continues.

We admire Morrow's determination. In such manner as we can aid his purpose, we will do so. The young Senator has marked himself as a sterling factor in our State by his recent victory over regular party nominees, not as a recalcitrant from the Democratic Party, but as a staunch and devoted member of that Party.

His was no split faction vote. His was what we deem to be the true vote of True Democrats. The Home Vote. He brought no rift in his Party. He but offered a chance for the party to express its sincere convictions of democracy. He is a typical Home Vote man, this young Senator. It is to be expected that he would realize the importance of limiting the Presidential terms to two.

He has had first hand opportunity to see for himself what happens to great Parties where control of them falls into professional hands. His determination was best attested by his courageous write-in campaign. It is now emphasized by his continuing fight for democracy in and out of his Party.

That sort of citizenship and that sort of public service are the first and best defenses we possess against invasion of our Liberty from within.

The editor of The Everglades News can honestly and conscientiously say "Amen, brother," to the splendidly written editorial which appeared in a recent edition of The Palm Beach Times. It was this editor's honor and privilege to serve in the State Legislature in Tallahassee with Young Morrow. During those trying days of 1937 this editor learned to love and respect the opinion of the young legislator from the East Coast of Palm Beach County. That he will make his mark in Florida politics is a foregone conclusion. Where and when he wants to step higher into the realm of political life of the state and nation is only for him to decide. We sincerely believe the voters will advance him whenever he deems the time is right!

Woman Race Driver At Speedway Sunday

One of Florida's few feminine auto race drivers, Dot Gladis of Tampa, will take part in the weekly stock car races at the Palm Beach Speedway Sunday.

The 18-year-old driver, the only woman driver on the Florida west coast, has advised Speedway officials that she would be here this weekend to try her hand at turning back some of the present speedway leaders.

Carl Queen, Speedway president, said the girl's confidence in her driving ability is no idle boast. Two weeks ago at Tampa, Queen said, Miss Gladis turned in a win over Frankie Schneider, the driver who won the Speedway feature last Sunday.

The girl, Queen said, has been racing stock cars for the past two years and during that time has won 10 out of 13 feature races which have been staged in Florida for women drivers.

Miss Gladis is a slight, attractive girl who stands five feet tall and weighs 100 pounds. She is so small that special modifications for regulation cars have to be made in order that she can reach the controls.

The Tampa girl has been a spectator at the Speedway for the past three weeks surveying the track and the field of regular drivers, Queen said, and has decided to make her bid for a share of the prize money in the weekly race programs.

WE ARE IN STEP WITH THE TIMES

It is no small task to record each week the happenings of any community. We here at The Everglades News are happy that our assignments bring us face to face with hundreds of folks of our community each week. We strive to KEEP IN STEP with what is going on here in this vast agricultural area on the eastern shore of Lake Okeechobee. It gives us a great deal of pleasure to record for you weekly (and for posterity) the happenings of a growing section of Florida. Future generations will thrill when they read of the pioneering efforts of you and your loved ones in establishing a great agricultural empire.

KEEPING IN STEP with the times means that we must be on our toes day in and day out—making an earnest effort to record those things which are interesting, historical, progressive and at times amusing. All such happenings go toward making up a worthwhile and happy community where living is just a mite better than in thousands of other places in America—where your neighbor's smile is just a mite friendlier than is witnessed elsewhere in this great land of ours.

Here In Our Newspaper

Office We've Spent

25 Years Doing One Thing Well

Each week for more than a quarter of a century this Newspaper has reached its readers each Friday morning with full and complete news coverage of the Lake Okeechobee Farm Area. Bringing out The Everglades News each week—on schedule—has grown to be a habit with those of us who produce it. Not once during the 25 years of its existence has this newspaper missed a publication day. Through floods, hurricanes and other adverse antics of nature we have managed to make the deadline. It has been no small accomplishment.

Try this on your stereoscope!

WHEN THIS "VIEWER" was in the parlor, folks used to look at pictures like these.

They'd spend many an hour gazing wistfully at scenes of places they'd like to visit, things they'd like to do.

But, today, there's an invention that beats those stereoscopic pictures all hollow. No—it isn't television.

It's the Payroll Savings Plan—an automatic

method of saving that all but puts you on that liner and says "bon voyage."

So simple, so painless, so sure—the Payroll Savings Plan sets aside a small part of your earnings each and every pay day, puts it in United States Savings Bonds.

And those bonds grow and GROW. In ten short years they pay you back \$4 for every \$3 you put in today.

A self-fattening investment—guaranteed by Uncle Sam—that will let you do things for your family and for yourself that you could never do without such a convenient plan.

And, if you're not on a payroll, there's the equally convenient, equally profitable Bond-A-Month Plan at your bank.

No matter how you look at them, U. S. Savings Bonds help to picture a bright, happy future!

Automatic saving is sure saving—U.S. Savings Bonds

CHURCH OF CHRIST, SCIENTIST

As matter, the opposite of Spirit, is seen for the nothingness it is, man is proportionately freed from its grasp. This fact is brought out in Christian Science services next Sunday when the Lesson-Sermon is entitled, "MATTER".

The Golden Text is from Psalms (81: 9, 10): "There shall no strange god. I am the Lord thy God, which brought thee out of the land of Egypt."

The difference between God's thoughts and the thoughts of mortals is strikingly presented in one of the verses among those in the Bible readings, "For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your

thoughts" (Isa. 55:9).

Among the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is the following: "Matter is not self-sustaining. Its false supports fail one after another. Matter succeeds for a period only by falsely parading in the vestments of law" (p. 372).
